Re: Gasamat Oil Corporation--Alamosa, Colorado

Dear Mr. Ornstein:

Pursuant to our telephone conversation on Tuesday, October 16, 1990, I understand that your office will provide us with a copy of EPA's Field Activities Report and Analytical Result Report.

As you may recall EPA was granted access to Gasamat's property located three blocks east of Denver Avenue in Alamosa, Colorado on June 22, 1990, for the purpose of taking samples of surface water, ground water and soil. Pursuant to paragraph 6 of the access agreement between EPA and Gasamat, EPA was to provide Gasamat, or its designated representative, with a copy of EPA's Field Activities Report and Analytical Result Report.

We appreciate your prompt attention to this matter.

Very truly yours,

Loretta A. Cahill
